

Precautions

1. You can connect five times a day and use it for 30 minutes each time.
2. Wi-Fi connection may be disconnected or unstable due to weather condition, and location.
3. The connection speed is limited for each terminal (PC, cellphone, tablet terminal) to ensure fair usage of Wi-Fi service.
4. It's possible that Wi-Fi connection is weak due to the position of your cabin.
5. We do not provide any help or support of setting your terminal or communication environment for Wi-Fi service.

How to use the Internet (Wireless LAN)

1. Enable Wi-Fi setting.
2. Search wireless ID(SSID) in your terminal.
3. Choose SSID of '**Cruising_Wi-Fi**'.
4. Start up a browser (Internet Explorer, Firefox etc.). Click the button 'Connect to the Internet'.
